Subject: RE: DDL 3/5: PFAS The Intercept

Looks ok. No comments.

Subject: FW: DDL 3/5: PFAS The Intercept

For 1 and 2, OPPT's feeling is that we have several consent orders and that we don't necessarily have to do the reporter's research asst. work for them. Thus, we are giving clear directions for how to find it.

Sharon Lerner

The Intercept

1. I am writing to request any 5(e) consent orders EPA has entered into with DuPont or Chemours for any PFAS compounds. I already have the consent order for GenX, so am not requesting that one. But can you please provide consent order for any other PFAS compounds? And, of course, please let me know if I need to submit a FOIA to obtain these documents.
2. I'd like to request one additional consent order: for the chemical (CAS #329238-24-6). This would be a consent order between Solvay, which is the manufacturer, and EPA.

EPA categorizes TSCA 5(e) consent orders by chemical identity, not company. These orders are publicly available in our [ChemView database](#), and can be found by searching for chemicals utilizing the "contains" feature for chemical name and entering in a chemical name or feature of the chemistry, such as "fluor" under the Chemical Information search criteria:

Chemical Information

[Clear Chemical Information](#)

Chemical Name or Chemical Identifier

[starts with](#) [exact](#) [contains](#)

fluor|

contains : fluor

247111 : Fluorinated aliphatic
isocyanate polymer (generic)

247111 : Fluorinated aliphatic
isocyanate polymer (PROVISIONAL)

P-07-0087 : Fluorinated aliphatic
isocyanate polymer (generic)

P-07-0087 : Fluorinated aliphatic
isocyanate polymer (PROVISIONAL)

and by selecting “TSCA Section 5 Orders” under “EPA Actions” in the Show Output Selection menu:

Show Output Selection

☐ Select All/Deselect All Outputs

▼ Data Submitted to EPA

☐ Select All/Deselect All

▼ EPA Assessments

☐ Select All/Deselect All

▼ EPA Actions

☐ Select All/Deselect All

☐ ☒ Significant New Use Rules

☐ Proposed Significant New Use Rules

☐ Final Significant New Use Rules

☐ ☒ Limitations on Manufacturing, Processing &
Use

☐ ☒ Premanufacture Notice Review
Determinations

☒ ☒ TSCA § 5 Orders

☐ ☒ Chemicals Subject to TSCA § 12(b) Export
Notification

▼ Manufacturing, Processing, Use, and Release Data Maintained by EPA

☐ Select All/Deselect All

In some cases, the company name is not available as it has been claimed as Confidential Business Information.

3. I have an additional request: This notice in the federal register from 2005 indicates that testing was to be done on the "laboratory-scale incineration" of four formulated composites of FP chemicals. I am requesting the results of that testing. Can you please send it to me?

In regards to the testing mentioned in the FRN, the information is available in these two public dockets:

- Laboratory Scale Incineration Testing of Fluorotelomer-Based Polymers: Final Enforceable Consent Agreement (ECA) and Testing Consent Order; Docket ID number EPA-HQ-OPPT-2004-0001.
- Laboratory Scale Incineration Testing of Fluoropolymers: Final Enforceable Consent Agreement (ECA) and Testing Consent Order; Docket ID number EPA-HQ-OPPT-2003-0071.

The complete list of public dockets that EPA has established for various PFAS-related activities is on the "More Information" tab on this page: <https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/risk-management-and-polyfluoroalkyl-substances-pfass#tab-3>
